

STRATTON ST MARGARET PARISH COUNCIL

Press Release	Corporate Plan – 3 years into Implementation
Author	Clerk and Proper Officer

In September 2021, Stratton St Margaret Parish Council implemented the Corporate and Strategic Plan for the period of 2021-2026.

This document gives the Council a mission, values and direction in the goals and objectives of the Council in line with the needs and wants of our residents. This provides us a list of things to get done and when to do it by.

The Parish Council is very proud to announce that two years early, we have hit all but one objective! This is something we work towards in ensuring that we provide the very best services in the most cost-effective way.

To recap, over the past 3 years the Council has continued to provide its core services to residents but has also provided some major projects to benefit the welfare of the local people:

- Implemented a successful youth service
- Renovated Beechcroft Library/community hub and entered into partnership with Brewbook for the community café
- Delivered both community and civic events
- Ensured the quality of your green open spaces
- Installed a Skate Park
- Renovated numerous play parks
- Purchased a road sweeper which will begin its rounds in the autumn/winter
- Revamped the parish newsletter with 4 additions per year
- Installing solar energy on buildings to promote going green

In doing all of this we have kept our precept (Council Tax) at 0% increase for the 5th year in a row!

This means that we are presently working on a new Corporate and Strategic Plan, to come into force 2 years early (from 2025). If there is anything in particular you as residents would like to see in this plan, please do not hesitate to make contact via info@strattonstmargaret.gov.uk
